- None (47)

As of May 19, 2022, 208 Vermont Municipalities belong to one or more Communications Union Districts (CUD). This represents 6% of Vermont's population. They represent 91% of the unserved locations. CUDs allow two or more towns to bond together as a municipal entity for a means of building communication infrastructure together. See Title 30: Public Service, Chapter 82: Communications Union Districts in Vermont state statutes. Other types of municipal districts include Solid Waste Districts, Consolidated Sewer Districts, etc.
