Review of April 2026 Customer Revenues & Subscribers

Discussion Summary: Chris went over customer counts, which are just below the budgeted goal for month end, and revenue growth - which is continually increasing, proportionate to customers. Our broadband average revenue per user is \$89.88, which is starting to increase with the seasonal users coming back to full price. He then explained that YTD customer revenues are 12% below budget, as the customer additions are 10-12% below budget. Currently, roughly 50% of customers are taking the 100Mbps and 25% are taking the 500Mbps. The new 50/50 offering will be taking effect this week or next, so that package will be reflected on next month's metrics.

Motion: to go into Executive Session under the provisions of 1 VSA §313 with FC Members and staff, in order to discuss grant updates, finding that premature disclosure could substantially disadvantage the CUD if it were to be made public at this time.	Passed with no objections

Executive session was entered at 2:08 pm and ended at 2:21 pm. No action was taken in executive session and nothing discussed in the session was suitable to put on the record, except the motion to exit executive session, that was moved by Marty Feltus and seconded by Linda Markin.
